

# Business Aircraft Records Courses

## Aircraft Documents Specialist

“ Leadership and learning are indispensable to each other ”

John F. Kennedy

All of BAR's courses are FAA approved. Content is drawn from information in the Aircraft Maintenance Technician Handbook (FAA-H-8083-30A), Chapter 2; from the Aviation Mechanic General, Airframe, and Powerplant - Airman Certification Standards (FAA-S-ACS-1); and ... from the real-world experience of BAR's team of aircraft maintenance professionals with a combined experience of over 200 years in business aircraft maintenance and operations.

### Incorporates These Ten Courses
